

Mountain Weather Forecasts // Advertising & Data Feeds

Winterhighland provides five day outlook Mountain Forecasts for the West Highlands, Northern Cairngorms and Southern Cairngorms. Unlike many 5-day forecasts on the web our forecasts are not automated computer generated forecasts; Our forecasts are produced daily at Winterhighland HQ taking into account the latest forecast model output from a variety of sources and how the current weather pattern has been developing across the mountain areas, relative to earlier model predictions.

These forecasts are available on our Snow Report pages, General Situation Page and our Mountain Weather Page.

Mountain Weather // Sponsorship

Sponsorship of the Mountain Weather forecasts incorporates a 256 pixel wide Sponsor's banner, which links to your own website. Mountain Weather Sponsorship is available as either:

- Sponsorship of All Areas £1000 seasonal
- Sponsorship of a Single Area £350 seasonal
- Sponsorship of All Areas for 1 Peak Winter Month (D/J/F/M/A) £250

Mountain Weather // Forecasts for your Site

Help your Business get repeat visits to your website, by adding local mountain weather forecasts to your site. Our standard forecast feed for one forecast region starts at just £120 per year for the basic feed for a small site, that's just £10 a month! All three areas are available for £250 per year. We can also provide the forecasts tailored to the format and requirements of your site, including specific area text forecasts, please contact us at reachhigher@winterhighland.com for further details.

As well as the standard example show above, our standard forecast feed can also be provided in the following format:
